Miguel Lamprea

WORK PROFILE

I am an ideal person for the creation and development of organizational projects, with knowledge of strategic demand planning, database design, maintenance and presentation of variability in the commercial field. I consider myself a respectful, sociable, active, resourceful, highly competitive and fast learner available for any job.

WORK EXPERIENCE

- **MegaLabs: Business Analyst, Institutional Area (Nov. 2022 – Mar. 2023)**

Perform the planning of the pharmaceutical demand, monitoring each of the agreements and logistic operators to determine the factors of incidence within the consumption and compliance with the agreements. also follow up with the representatives of each agreement, sharing alerts of overstock and alterations in the compliance of the legal obligations of each contract.

- **Swiss Sport: Business Analyst (May. 2022 – Nov. 2022)**

I was in charge of the analysis of new business opportunities for jewelry and footwear accounts within the Falabella nationwide, perform budgets and demand studies to direct the sales force in favor of the best sales locations. Finally, I was in charge of financial and compliance reports for each account.

- **DSV: Business Intelligence Analyst (Terminal Operator) (Sep. 2019 – Feb. 2022)**

I was the leader responsible for collecting and analyzing information to optimize metrics and support decision making. Mainly compile, clean, process and visualize relevant information that would allow an assertive demand planning; especially decreasing time and costs in operational processes for Huawei, Nokia and Xiaomi accounts. Finally, generate reports and KPI's for each of these accounts; likewise, develop productive models for demand.

- **Alpina: Analyst (Agency Assistant) (Jul. 2018 – Jul. 2019)**

Warehouse and production control -Material quotation -Purchasing and invoicing management -Supplier consolidation -Processing of progress reports on raw material management and supply.
